This is **BCA**

A premium brand that is recognized across the industry for product quality

Powered by NTN, the largest manufacturer of wheel hub assemblies in North America, BCA offers the full line of premium, OE-Quality wheel end replacement parts for domestic and import applications that you need and deserve.

NTN's Elgin, Illinois plant is one of the largest manufacturers of hub assemblies in the world. This state of the art, 670,000 square foot facility provides Automotive Aftermarket customers with highly-engineered replacement parts that meet or exceed OE engineering expectations.

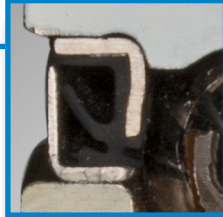

Features and Benefits

Get the job done right the first time- avoid comebacks, warranty claims, and turn your bays

1 CUSTOM DESIGNED SEALS

All BCA hubs use custom designed seals with premium materials to prevent contamination and extend bearing life in even the worst conditions

2 PREMIUM WHEEL STUDS

Forged steel construction provides high strength and easier installation

3 PRECISION CAGE DESIGN

Rolling elements' cages reduce friction by keeping rolling elements spaced correctly, resulting in reduced operational temperatures and preventing damage

4 OE-STYLE ABS PLUGS

Application-specific components to ensure proper connection and performance of the ABS module and sensors

5 PREMIUM GREASE

Pre-lubricated bearings packed with specialized grease provide long life and low operational temperatures

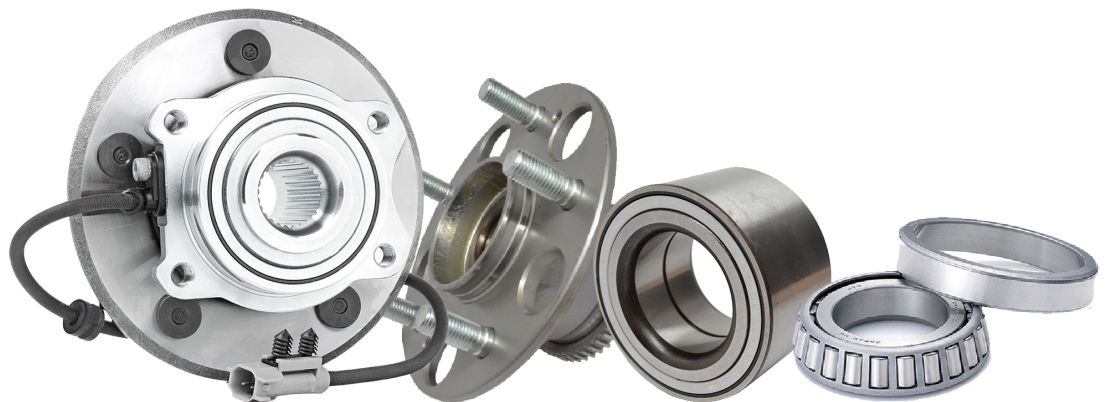

6 WORLD CLASS ENGINEERING

Application unique engineering design reduces noise, vibration, and harshness (NVH), helping to avoid unnecessary comebacks

A Complete Wheel End Partner

BCA has you covered with a full line of wheel end products- Gen 1, Gen 2, Gen 3, and tapered wheel bearings for all of your car and light duty truck needs
